**BENDER SPEAKS AT MEETING OF BUSINESS MEN**

F. W. Bender addressed members of the committee from the Business Men's association at their meeting last night, outlining plans

for the reorganization of the association, and dwelling upon its aims and the benefits of membership. The meeting, held at the Y. W. C. A., where a dinner was served at 7 o'clock, was for the purpose of making final plans for the campaign for members, which opens today.

Twenty teams, comprised of 40 men, are canvassing the city today. They are working in teams of two, one section being directed by John Weisbar as chairman, the other by W. A. Bartz. The latter group is calling up on grocers and meat dealers.

The first reports will be made Friday noon when members of the committee will assemble at the Rock Island club for luncheon.

Every business man will have been seen by tomorrow evening, members of the committee estimate. They anticipate securing the desired membership roll for the association without difficulty.

## CONSTANT THRILLS FROM DARING ACTS WITH WILD BEASTS

When Hagenbach's trained animal show first visited this country every one took notice and were amazed at the simple acts a few wild beasts were taught to do. By modern methods of training, careful study of different beasts, learning their natural habits and characteristics and developing their abilities as performers along sane and sensible lines, Yankee Robinson circus outstrips anything ever thought about by the number of different wild beasts it has and the very out-of-the-ordinary things these beasts are taught to do.

Imagine to be able to see camels in vaulting and posing acts, sea lions riding horses and juggling all sorts of articles on the tip of their noses, monkeys as trapeze artists of real skill, elephants working in harmony with lions and other beasts that have for ages thought to be natural enemies to one another.

**Famous Horses.** The paddocks of the Yankee Robinson circus is in itself a treat, for they contain the famous string of "Hobbs" horses that every stockman is familiar with, besides the premier of all dancing horses, Tango Chief, Texas Tommy and Yankee Doodle.

The acts given by dangerous wild beasts are staged in a great

steel arena in the center of the big exhibit tent. The animals are brought through a tunnel from their dens into the arena, and here men and women skilled in handling wild beasts put the "cats," as all feline animals are termed by circus people, through their acts. Sawdust circles on either side of the arena are used for exploiting animals of less dangerous character.

**DR. COFFEE AT HOME.** Dr. Coffee, the oculist and aurist, in the First National Bank building, Davenport, Iowa, arrived home from his vacation last Saturday and will be in his office every Saturday, Monday, Tuesday and Wednesday. People afflicted with eye, ear, nose and throat diseases can see him any of these days.
